(#MT-0015) Hackmoto V2 45T 540 Brushed Motor

Model : MT-0015
(#MT-0015) Hackmoto V2 45T 540 Brushed Motor

Description:
This Yeah Racing Hackmoto V2 Modified brushed motor series are high performance 540 motors designed exqusitivly for competitive RC usage.
Hackmoto V2 featured premium quality material with high strength magnets for unmatched brushed motor speed and torque. Beside of its performance, the motor featured direct-solder wiring tabs for flexible soldering options. It is also designed to be rebuildable with an easily accessible commutator and replaceable brushes and springs. The motor also adapted dual-ball bearings design yields better performance, allowing a smooth ride, precise control with best possible efficiency.

Feature:

?Size: 540
?For: 1/10 RC Car
?Color: Black
?Rebuildable with an easily accessible commutator and replaceable brushes and springs
?High strength magnets for unmatched brush-motor performance
?Specifically designed for R/C vehicles that require precise movement control
?Excellent torque and long-run times
?Direct-Solder Wiring Tabs for flexible soldering options
?Dual-ball Bearings Design

Racing RC spare

(#MT-0015) Hackmoto V2 45T 540 Brushed Motor

Specification:

?Length: 70mm
?Width: 36mm
?Shaft: 3mm
?Turn: 45
?Input Voltage: 7.4v
?Max. Input Voltage: 11.1V
?Shaft Length: 13mm

Include:

?Hackmoto V2 45T 540 Brushed Motor (1 pc)

Availability: This product was added to our catalog on Monday 01 September, 2014
